

# Seating plan for school gyms

## { PERFORMANCE AREA }

ADULT SEATING   
*Chairs for adults,  
arranged along the  
sides. They help to  
define the chil-  
dren's seating  
area.*

CHILDREN'S SEATING: Children should sit on the floor in this centre area. The children are asked to sit cross-legged, rather than kneeling or sitting up. Classes should be seated in order of grade, with the youngest grade in front.

ABOUT CHAIRS: Chairs for adults can be arranged along the outside of the children's area, angled towards the performance area. If more chairs are needed for adults, chairs can be arranged in pairs along the sides, and if that isn't sufficient, one or two rows can be set out at the back. *All the children should sit on the floor; they'll see better, and remain more involved.*

*Teachers can sit beside  
their classes.*
